ABDUL MUQSITH PEERZADE

Software Engineer

👤 Profile

As a passionate and highly motivated software engineer student, I am excited to embark on my career journey. I am eager to contribute fresh perspectives and innovative solutions to tackle challenges.

🎓 Education

PUC, ANJUMAN PUC, BHATKAL

July 2018 — August 2020

Btech, ANJUMAN INSTITUTE OF TECHNOLOGY AND MANAGEMENT, BHATKAL

January 2021 — May 2024

★ Projects

Clinic Management, Python

I developed a comprehensive clinic management system using Python and Django, streamlining the entire patient workflow. This web-based application enables efficient appointment scheduling, patient record management, and billing.

Truth or Dare game, Mobile application

n my Mobile Application Development Lab project, I created an engaging Truth and Dare game using Java and XHTML. This mobile app offers a fun and interactive experience, allowing users to challenge friends with entertaining truth questions and daring tasks.
